***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

2. Claims 1-32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 16, 28 and 32, the compounds "1.1SrO-1.5Al<sub>2</sub>O<sub>3</sub>-13.6SiO<sub>2</sub>-TiO<sub>2</sub>" and "11.2SrO-10.9Al<sub>2</sub>O<sub>3</sub>-24.1SiO<sub>2</sub>-TiO<sub>2</sub>" are not clearly defined as to whether the ratios are based upon weight or molar as well as the amount of TiO<sub>2</sub> is not defined therefor the meets and bounds of the claims cannot be determined.

Claims 9, 16, 32 fail to further limit the claims from which they depend. The porosity of claim 9 is outside claim 8. Claims 16 and 32 the values x,z and b may be zero however the claims from which they depend require these components to be greater than zero.

***Allowable Subject Matter***

3. Claims 1-32 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. The prior art of record fails to teach or fairly suggest the claimed ceramic article, diesel filter and method of forming having all the recited components present. The closest prior art is considered to be Ogunwuni et al however the strontium containing components are not taught.
